# SIBIN S A
## Full Stack Developer

Trivandrum,Kerala • +91- 9496703423 • sibinskichu9496@gmail.com • linkedin.com/in/sibin-s-a-124460278/ •github.com/sibin9496

## CERTIFICATIONS

### Certification in Full Stack Web Development (MERN)
**Entri Elevate**                                                                                            Jan 2026

- Performed data analysis using Generative AI tools to extract meaningful insights from real-world datasets.
- Created visualizations and reports to support data-driven business decision making.

### GenAI Powered Data Analytics Job Simulation
**TATA**                                                                                                       Jan 2026

- Analyzed real-world datasets using Generative AI tools to generate actionable insights and business recommendations.
- Created data visualizations and analytical reports to support data-driven decision-making.

### Introduction to Cloud Job Simulation
**DATACOM**                                                                                                   Jan 2026

- Completed an online Cloud Job Simulation through Forage, gaining practical exposure to real-world cloud environments.
- Developed hands-on skills in cloud infrastructure, deployment workflows, and industry-relevant practices.

### Data Analytics Job Simulation
**DELOITTE**                                                                                                  Jan 2026

- Completed a hands-on Data Analytics job simulation involving data cleaning, analysis, and visualization to support business decision-making.
- Applied tools like Excel/SQL/Python to interpret datasets, identify trends, and present actionable insights through reports and dashboards.

## PROJECTS

### EventEase Management System | Nodejs, MongoDB, Express, React                **Live Link** | **GitHub Link**

- Developed a web-based platform to manage events, including event creation, registration, and attendee tracking.
- Ensured secure data handling and efficient event management workflows.
- Integrated secure data handling practices to protect user and event information.
- Optimized backend processes to ensure reliable performance and accurate attendee records.

### Food Delivery Web Application | React, Redux, Tailwind CSS                      **Live Link** | **GitHub Link**

- Developed a responsive frontend web application to display restaurants, menus, and cart functionality with an interactive user interface.
- Implemented search and filter features to enable quick discovery of restaurants and menu items.
- Built dynamic UI components to handle real-time updates and smooth user interactions.
- Ensured cross-device compatibility and optimized performance for an improved user experience.

## EDUCATION

Bachelor of Engineering — Computer Science                                                          2022 - 2026
Anna University
Hosur,Tamilnadu

## SKILLS

Technical Skills

- Built responsive web applications using HTML, CSS, JavaScript, React, and Redux.
- Worked with MongoDB, Express.js, Node.js for full-stack development and API integration.
- Designed UI using Tailwind CSS / Bootstrap and tested APIs with Postman.
- Used Git & GitHub for version control and collaboration; created dashboards for real-time data visualization.
- Familiar with state management, component lifecycle, and performance optimization in modern web applications.

Soft Skills

- Strong analytical problem-solving and attention to detail.
- Effective teamwork, communication, and presentation skills.
- Good time management with a focus on continuous learning.
